

Subject Index: Volume 29, 2004

- Accidental injections, from neuraxial anesthesia, 341
 Accufuser Plus flow-rate restrictor, for portable infusion pumps, 371
Acinetobacter baumannii intrathecal pump catheter-related infection, transverse myelitis and, 503(letter)
 Addiction, pain management for chronic opioid-consuming patients and, 576
 Age, maximum recommended local anesthetic doses and, 564
 Ambulatory surgery pain
 at-home perineural infusions for, 1
 interscalene perineural ropivacaine for, 9
 Amitriptyline, for prolonged intrathecal anesthesia, 434
 AMPA receptors, neurobiology of infant pain and, 36
 Amperage, of stimulating catheter for paravertebral block placement, 230
 Analgesia. *See also specific analgesics and analgesic techniques*
 intrathecal baclofen for, 269
 for mitral stenosis during pregnancy, 610
 outcome, postoperative cognitive function and, 257
 peripheral opioid, in laparoscopic cholecystectomy, 424
 Anatomical posterior approach, popliteal sciatic nerve block, 290
 Anesthesiologists, subjective perceptions of injection pressure during peripheral nerve block, 201
 Anesthetics. *See also specific anesthetics and anesthetic techniques*
 long-acting, antidepressants as, 277
 for mitral stenosis during pregnancy, 610
 Animal studies
 antidepressants as long-acting local anesthetics, 277
 comparative intrathecal neurotoxicity of local anesthetics, 446
 comparison vasodilation effect induced by sympathetic block, 441
 electrophysiologic effects of injectate on peripheral nerve stimulation, 189
 intraneural injection, high injection pressure and, 417
 with intrathecal baclofen, 269
 local anesthetic properties of tricyclic antidepressants, 286
 locating target nerve and injectate spread in sciatic nerve block, 194
 sympathetic block dexmedetomidine effect on mepivacaine-induced vasodilation, 323
 Anterior approach, sciatic nerve block, thigh rotation and, 32
 Antidepressants
 as long-acting local anesthetics, 277
 tricyclic, local anesthetic properties of, 286
 Aortic stenosis, neuraxial block in, 496
 Arterial blood flow, induced by sympathetic block, 441
 Audiometry, hearing loss after spinal anesthesia, 430
 Authors, unethical behavior of, 90
 Axillary brachial plexus block
 duration, methylprednisolone and, 380(letter)
 forearm tremor during, 510(letter)
 with multiple nerve stimulation, pain perceptions during, 328
 percutaneous electrode guidance of, 206
 Back pain
 from neuraxial anesthesia, 341
 radiofrequency lumbar facet denervation, 400
 selective nerve root blocks for, 243
 Baclofen, intrathecal for pain management, 269
 Barbiturate, postoperative hyperalgesia, 70(letter)
 Bier block, in complex regional pain syndrome, 408
 Biologic models, needle characteristics in, 476
 Book reviews
 Pain Medicine: A Comprehensive Review (Raj), 77
 Peripheral Nerve Blocks: Principles and Practice (Hadzic and Vloka), 385
 Peripheral Nerve Blocks on DVD: Lower Limbs (Delbos et al.), 512
 Brachial plexus block
 axillary. *See* Axillary brachial plexus block
 cervical paravertebral, for obese patient, 227
 distal vs. proximal approach, 520
 Horner's syndrome after, 378(letter)
 infraclavicular. *See* Infraclavicular plexus block
 interscalene, with ropivacaine and bupivacaine, 557
 neurostimulation, interpreting infraclavicular motor responses, 618(letter)
 single injection, 520, 534
 Brachial plexus cords, motor responses to neurostimulation, 125
 Bupivacaine
 with ketamine for caudal anesthesia, 28
 low-dose, hyperbaric vs. hypobaric, 17
 nerve blocks vs. patient-controlled analgesia after total-hip arthroplasty, 102
 with ropivacaine for interscalene brachial plexus block, ECG effects, 557
 toxicity, lipid emulsions for prevention of, 73(letter), 74(letter)
 vasoactivity, epinephrine adjuvant concentration and, 307
 vs. ropivacaine
 for cesarean delivery, 221
 effect on arterial blood flow induced by sympathetic block, 441
 for interscalene brachial plexus block, 539
 Cancer patients, hematoma formation after neuraxial blocks, 378(letter)
 Carotid endarterectomy, ropivacaine dosage for cervical plexus block, 312

Catheters

- continuous suprascapular nerve block, transcutaneous placement method, 75(letter)
- difficult lateral popliteal insertion in peripheral vascular disease, ultrasound guidance for, 368
- epidural. *See* Epidural catheters
- intrathecal
 - implantation, traumatic syring after, 606
 - inflammatory mass, spinal cord compression from, 237
- lumbar plexus tip position, fluoroscopic determination of, 72(letter)
- perineural, placement complications, 174(letter)
- psoas compartment, misplacement in subarachnoid space, 60
- stimulating vs. nonstimulating perineural placement, 212
- thoracic epidural, placement in children, 83
- Cauda equina syndrome synovial cysts, lithotomy position and, 234
- Caudal anesthesia
 - ketamine with bupivacaine for, 28
 - for thoracic epidural catheter in children using electrical nerve stimulator, 92
- C-Bloc flow-rate restrictor, for portable infusion pumps, 371
- Central poststroke pain syndrome, mimicked by conversion disorder after spinal cord stimulation, 164
- Cerebrospinal fluid return, success rate for percutaneous retrogasserian glycerol rhizotomy and, 592
- Cervical paravertebral block
 - continuous, using minimal current for stimulating catheter placement, 230
 - for shoulder surgery in obese patient, 227
- Cervical plexus block, for carotid endarterectomy, ropivacaine dosage, 312
- Cervicogenic headache management, for pain specialist, 463
- Cesarean delivery
 - under spinal anesthesia, piriformis syndrome after, 364
 - spinal ropivacaine vs. bupivacaine for, 221
- Children. *See also* Infants
 - electrical nerve stimulator for thoracic epidural catheter caudal insertion, 92
 - inguinal herniotomy, ketamine with bupivacaine for caudal anesthesia, 28
 - thoracic epidural catheter placement in, 83
- Cholecystectomy, laparoscopic, peripheral opioid analgesia in, 424
- Clinical hypnosis, modulation of fMRI signal intensities and pain perception in thermal stimulation paradigm, 549
- Clonidine, with intrathecal baclofen, 269
- Cluster headache management, for pain specialist, 463
- Cognitive function, postoperative, 257
- Colon surgery, anesthesia and analgesia for, 52
- Combined spinal-epidural technique, for vaginal hysterectomy in Machado-Joseph disease patient, 352
- Complex regional pain syndrome, Bier block with methylprednisolone and lidocaine, 408

Complications

- accidental subdural injection during lumbar epidural block, 45
- anesthesia and analgesia for colon surgery, 52
- antidepressants as long-acting local anesthetics, 277
- bupivacaine toxicity, lipid emulsions for prevention of, 73(letter), 74(letter)
- femoral nerve injury in psoas compartment block, 361
- hearing loss after spinal anesthesia, 430
- infectious, after regional anesthesia, 70(letter)
- injection pressures during simulated peripheral nerve block, 201
- intrathecal baclofen, 269
- late-onset phantom-limb sensation during regional anesthesia, 168
- lower lobe collapse during interscalene nerve block at-home, 65
- misplacement of psoas compartment catheter in subarachnoid space, 60
- myotoxicity of local anesthetics, 333
- neurologic deficits, labor analgesia and, 341
- from neurolytic celiac plexus blocks, preventability of, 377(letter)
- panic attacks and hyperventilation may mimic local anesthesia toxicity, 617(letter)
- paralysis after transforaminal epidural injection, 494
- perineural catheter placement, 174(letter)
- from peripheral nerve stimulators, 185
- piriformis syndrome after spinal anesthesia for cesarean section, 364
- pneumothorax after shoulder arthroscopy, 382(letter)
- regional anesthesia, fears and perceptions of, 96
- spinal cord compression from intrathecal catheter-tip inflammatory mass, 237
- traumatic syring after intrathecal catheter implantation, 606
- Conduction anesthesia, single-injection insulated block needles for, 476
- Continuous peripheral nerve blocks
 - femoral, comparison of nonstimulating vs. stimulating catheter-guidance for, 212
 - fluoroscopic determination of catheter tip position for, 72(letter)
 - interscalene ropivacaine
 - dosing regimens for, 9
 - lower lobe collapse during, 65
 - minimal current for stimulating catheter placement, 230
 - psoas compartment, reliability of, 172(letter)
- Continuous spinal anesthesia, after unintentional dural puncture, 381(letter)
- Conversion disorder, mimicking Dejerine-Roussy syndrome after spinal cord stimulation, 164
- Crile, Dr. George, contributions of, 600
- CT guidance for neurolytic celiac plexus blocks, preventability of complications, 377(letter)
- Deafferentation, late-onset phantom-limb sensations and, 168
- Dejerine-Roussy syndrome, mimicked by conversion disorder after spinal cord stimulation, 164

- Dementia, postoperative, 257
- Dexmedetomidine, prolongation of mepivacaine sympathetic block in dogs, 323
- Dextrose in water, electrophysiologic effects on peripheral nerve stimulation, 189
- Diagnostic criteria, for headaches, 463
- Diaphragmatic excursion, after modified Raj infraclavicular block, 110
- Dosage, maximum recommended local anesthetic doses, 564
- Dural puncture, unintentional, continuous spinal anesthesia after, 381(letter)
- Duration
 of axillary plexus block, methylprednisolone and, 380(letter)
 dexmedetomidine prolongation of mepivacaine sympathetic block in dogs, 323
- Education
 to alleviate fears/misperceptions of regional anesthesia, 96
 learning curve for simulated ultrasound guidance in interventional task, 544
 perioperative pain control, 382(letter)
- Electrical nerve stimulator, for thoracic epidural catheter caudal insertion in children, 92
- Electrophysiology
 of flush injectates, stimulating catheter and, 509(letter)
 injectate effects on peripheral nerve stimulation, 189
- Endoscopy, in situ imaging for paravertebral block, 596
- Epidural analgesia
 for colon surgery, 52
 postoperative, morbidity/mortality of Medicare patients and, 525
 transforaminal injection of steroids, 397
- Epidural blood patch
 development and acceptance of, 136
 history of, 81
- Epidural catheters
 insertion, for minimizing postdural puncture headache, 299(letter)
 measurement markings, differences in, 510(letter)
 thoracic, placement in children, 83
- Epidural injection, transforaminal, paralysis after, 494
- Epidural nerve blocks
 in herpes zoster and postherpetic neuralgia, 454
 inadequate spread, 7
 lumbar, accidental subdural injection during, 45
 pain management for chronic opioid-consuming patients, 576
- Epinephrine, adjuvant concentration, effect on vasoactivity of local anesthetics, 307
- Ergot derivatives, for migraine management, 463
- Ethics, unethical behavior of authors, 90
- European Society of Regional Anaesthesia & Pain Therapy, XXIII Annual Congress proceedings, 52
- Evidence-based medicine
 anesthesia and analgesia for colon surgery, 52
 anesthetic and analgesic management of mitral stenosis during pregnancy, 610
 neuraxial blockade for aortic stenosis, 496
- Fascicular injury, high injection pressure for intraneural injection and, 417
- Fear, of regional anesthesia, 96
- Femoral nerve block
 nonstimulating vs. stimulating catheter guidance, 212
 vs. patient-controlled analgesia after total-hip arthroplasty, 102
- Femoral nerve injury
 complicating psoas compartment block, 361
 from neuraxial anesthesia, 341
- Fentanyl regional anesthesia, for very-low-birth weight neonate, 58
- Flow-rate restrictor, temperature-dependent for portable infusion pumps, 371
- Fluoroscopy, determination of catheter tip position for continuous peripheral nerve block, 72(letter)
- Functional magnetic resonance imaging, signal intensities and pain perception, clinical hypnosis modulation of, 549
- GABA receptors, neurobiology of infant pain and, 36
- General anesthesia, for colon surgery, 52
- Glycine receptors, neurobiology of infant pain and, 36
- Granuloma, intrathecal catheter-tip formation, spinal cord compression from, 237
- Great auricular nerve block, for very-low-birth weight neonate, 58
- Greater occipital nerve block, for very-low-birth weight neonate, 58
- Hand surgery, infraclavicular motor responses to neurostimulation, 125
- Headache management, for pain specialist, 462
- Head-up tilt, after stellate ganglion block, effect on QT interval and dispersion, 317
- Hearing loss, after spinal anesthesia, 430
- Hematoma formation, after neuraxial blocks in cancer patients, 378(letter)
- Hepatic disease, maximum recommended doses for local anesthetics, 564
- Herpes zoster, neuraxial and sympathetic blocks in, 454
- History
 contributions of Dr. George Crile, 600
 of Mayo Clinic connection for Gaston Labat and John Lundy, 489
- Holter monitoring, of ECG effects of ropivacaine with bupivacaine interscalene brachial plexus block, 557
- Home infusion, perineural, 1
- Horner's syndrome, after brachial plexus block, 378(letter)
- Humeral nerve block with multiple nerve stimulation, pain perceptions during, 328
- Hustead tip needles, ultrasound visibility of, 480
- Hydromorphone, intraspinal catheter-tip inflammatory mass, spinal cord compression and, 237
- Hyperalgesia
 barbiturate, 70(letter)

- pain management for chronic opioid-consuming patients, 576
- Hyperbaric solution, vs. hypobaric solution, low-dose bupivacaine for unilateral spinal anesthesia, 17
- Hyperventilation, and panic attacks may mimic local anesthesia toxicity, 617(letter)
- Hypnosis, modulation of fMRI signal intensities and pain perception in thermal stimulation paradigm, 549
- Hypobaric solution, vs. hyperbaric solution, low-dose bupivacaine for unilateral spinal anesthesia, 17
- Infants
neurobiology of pain, 36
very-low-birth weight neonate, regional anesthesia for, 58
- Infection
intrathecal pump catheter-related, transverse myelitis and, 503(letter)
from neuraxial anesthesia, 341
- Infralavicular plexus block
best approach for, 520
coracoid, median vs. musculocutaneous nerve response to, 534
coracoid single-injection, median vs. musculocutaneous nerve response, 534
distal vs. proximal stimulation, 520
interpreting motor responses to neurostimulation, 125
modified Raj technique, diaphragmatic excursion and respiratory function after, 110
motor responses, to brachial plexus neurostimulation, interpretation of, 618(letter)
neurostimulation, evaluation of motor responses to, 505(letter)
- Inguinal herniotomy, ketamine with bupivacaine for caudal anesthesia, 28
- Injectate
electrophysiologic effects on peripheral nerve stimulation, 189
flush, electrophysiologic effects, stimulating catheter and, 509(letter)
spread, needle tip placement and, 194
- Injectional techniques, instructional courses for, 377(letter)
- Injectionists, vs. pain medicine specialists, 305, 621(letter)
- Injection pressure for intraneural injection, fascicular injury, neurologic deficits and, 417
- Interscalene brachial plexus block
at-home, lower lobe collapse during, 65
continuous perineural ropivacaine, dosing regimens for, 9
with ropivacaine and bupivacaine, 557
ropivacaine vs. bupivacaine for, 539
- Intraneural injection with high injection pressure, fascicular injury, neurologic deficits and, 417
- Intraspinal drug therapy, inflammatory mass from, spinal cord compression and, 237
- Intrathecal blocks
catheter-related infection, transverse myelitis associated with *Acinetobacter baumannii*, 503(letter)
for herpes zoster and postherpetic neuralgia, 454
- Intrathecal catheter
implantation, traumatic syring after, 606
inflammatory mass, spinal cord compression from, 237
- Intrinsic obstetric palsy, from neuraxial anesthesia, 341
- KA receptors, neurobiology of infant pain and, 36
- Ketamine, with bupivacaine for caudal anesthesia, 28
- Labat, Gaston, historical perspective on, 489
- Labor analgesia, neurologic deficits and, 341
- Laparoscopic colon surgery, anesthesia and analgesia for, 52
- Lateral approach, popliteal block, vs. midfemoral sciatic nerve block, 23
- Lateral cord stimulation, infraclavicular plexus block, 125
- Lateral femoral cutaneous neuropathy, from neuraxial anesthesia, 341
- Lateral popliteal nerve block, with ultrasound guidance, 507(letter)
- Lesion size, reproducibility after radiofrequency facet denervation, 400
- Levobupivacaine vasoactivity, epinephrine adjuvant concentration and, 307
- Lidocaine
in Bier block for complex regional pain syndrome, 408
intrathecal, comparative neurotoxicity in rats, 446
transdermal, for postherpetic neuralgia, 75(letter)
- Lidoderm patch, for postherpetic neuralgia, 75(letter)
- Lipid emulsions, for prevention of bupivacaine toxicity, 73(letter), 74(letter)
- Lithotomy position, cauda equina syndrome and, 234
- Local anesthetics
maximum recommended doses, 524, 564
myotoxicity, 333
systemic toxicity, 116
toxicity mimicked by panic attacks and hyperventilation, 617(letter)
tricyclic antidepressants as, 286
vasoactivity, epinephrine adjuvant concentration and, 307
- Long-acting spinal anesthesia, high-volume intrathecal amitriptyline for, 434
- Low-back pain. *See* Back pain
- Lumbar epidural block, failed or inadequate, accidental subdural injection and, 45
- Lumbar plexus block
catheter tip position, fluoroscopic determination of, 72(letter)
misplacement of psoas compartment catheter in subarachnoid space, 60
- Lumbosacral plexus injury, from neuraxial anesthesia, 341
- Lundy, John, historical perspective on, 489
- Machado-Joseph disease, combined spinal-epidural technique for vaginal hysterectomy in, 352
- Magnetic resonance imaging
evaluation of handheld ultrasound machine in localizing sciatic nerve, 413

- of thigh rotation in anterior sciatic nerve block, 32
- of traumatic syrinx after intrathecal catheter implantation, 606
- Maximum recommended doses, for local anesthetics, 524, 564
- Mayo clinic, historical perspective on, 489
- Medicare surgical patients, morbidity/mortality, postoperative epidural analgesia and, 525
- Medication-overuse headache management, for pain specialist, 463
- Mepivacaine
 - axillary and humeral blocks using multiple stimulations, pain perception during, 328
 - intrathecal, comparative neurotoxicity in rats, 446
 - sympathetic block in dogs, dexmedetomidine effect on, 323
- Methylprednisolone
 - in Bier block for complex regional pain syndrome, 408
 - duration of axillary plexus block and, 380(letter)
- Midfemoral block, sciatic nerve, vs. lateral popliteal block, 23
- Midhumeral nerve block, with multiple nerve stimulation, pain perceptions during, 328
- Migraine management, for pain specialist, 462
- Mitral stenosis, during pregnancy, anesthetic and analgesic management during, 610
- Modified Raj technique, infraclavicular plexus block, diaphragmatic excursion and respiratory function after, 110
- Morbidity, of Medicare surgical patients, postoperative epidural analgesia and, 525
- Morphine
 - intrathecal, inflammatory mass formation, spinal cord compression from, 237
 - with intrathecal baclofen, 269
 - patient-controlled analgesia, vs. femoral or psoas compartment nerve block, 102
 - with spinal ropivacaine vs. bupivacaine for cesarean delivery, 221
- Mortality
 - after noncardiac surgery, postoperative epidural analgesia and, 515
 - of Medicare surgical patients, postoperative epidural analgesia and, 525
- Multimodal management, of perioperative pain, 380(letter)
- Multiple nerve stimulation, axillary and humeral blocks, pain perceptions during, 328
- Muscle twitches, elicited during infraclavicular plexus block, 125
- Myotoxicity, of local anesthetics, 333
- Needle
 - percutaneous electrode guidance for axillary plexus block, 206
 - position for selective nerve root block, 616(letter)
 - for regional nerve block, ultrasound visibility of, 480
 - resistance, injection pressures during simulated peripheral nerve block, 201
 - in situ images of thoracic paravertebral space, 596
 - tip placement, injectate spread in sciatic nerve block and, 194
- Nerve blocks. *See also specific types of nerve blocks*
 - for headache management, 463
 - learning curve for simulated ultrasound guidance in interventional task, 544
- Nerve injuries, after regional anesthesia, 361
- Nerve-needle distance, injectate spread in sciatic nerve block and, 194
- Nerve root blocks, selective, for low back pain and radiculopathy, 243
- Nerve root injury, from neuraxial anesthesia, 341
- Nerve stimulation
 - electrophysiologic effects of injectates on, 189
 - locating target nerve and injectate spread in sciatic nerve block, 194
 - median vs. musculocutaneous response, single-injection infraclavicular coracoid block and, 534
 - minimal current, for cervical paravertebral catheter placement, 230
 - multiple, during axillary and humeral blocks, pain perceptions during, 328
 - technical aspects, 185
 - for thoracic epidural catheter caudal insertion in children, 92
- Nerve trauma risk, from peripheral nerve stimulators, 185
- Neuraxial anesthesia, complications from, 341
- Neuraxial blocks
 - in aortic stenosis, 496
 - hematoma formation in cancer patients, 378(letter)
- Neurologic deficits
 - high injection pressure and intraneural injection and, 417
 - labor analgesia and, 341
- Neurolysis, nerve-needle distance, injectate spread in sciatic nerve block and, 194
- Neurolytic celiac plexus blocks, preventability of complications, 377(letter)
- Neurosonography, for difficult lateral popliteal catheter insertion in peripheral vascular disease, 368
- Neurostimulation
 - to brachial plexus, interpreting infraclavicular motor responses, 618(letter)
 - distal vs. proximal for infraclavicular block, 520
 - infraclavicular motor responses to, 125, 505(letter)
- Neurosurgery, regional anesthesia, for very-low-birth weight neonate, 58
- Neurotoxicity, of high-volume intrathecal amitriptyline, 434
- NMDA receptors, neurobiology of infant pain and, 36
- Noncardiac surgery mortality, postoperative epidural analgesia and, 515
- Obesity, cervical paravertebral block for shoulder surgery, 227
- Obturator nerve injury, from neuraxial anesthesia, 341
- Opioid addiction, pain management and, 576
- Opioid analgesia
 - after colon surgery, 52
 - for laparoscopic cholecystectomy, 424
 - for very-low-birth weight neonate, 58

- Pain. *See also specific pain management techniques*
 chronic opioid-consuming patients, 576
 neurobiology in infants, 36
 perception
 during axillary and humeral blocks using multiple stimulations, 328
 clinical hypnosis modulation in thermal stimulation paradigm, 549

 axillary and humeral blocks using multiple stimulations, pain perception during, 328
 with bupivacaine, for interscalene brachial plexus block, ECG effects, 557
 cervical paravertebral block for obese patient, 227
 dosage, cervical plexus block for carotid endarterectomy, 312
 interscalene nerve block
 at-home, lower lobe collapse during, 65
 perineural, dosing regimens for, 9
 lateral popliteal vs. midfemoral sciatic nerve block, 23
 popliteal nerve block, late-onset phantom-limb sensation during, 168
 vs. bupivacaine
 for cesarean delivery, 221
 for duration and magnitude of arterial blood flow and, 441
 for interscalene brachial plexus block, 539
- Sacroiliitis, after spinal anesthesia for cesarean section, 364
- Sciatic nerve block
 anterior approach, thigh rotation and, 32
 locating target nerve and injectate spread in, 194
 midfemoral approach, vs. lateral popliteal block, 23
 popliteal
 posterior approach for, 290
 ultrasound imaging of, 130
 ultrasound guidance
 accuracy of, 413
 for difficult lateral popliteal catheter insertion, 368
- Sciatic nerve injury, from neuraxial anesthesia, 341
- Selective nerve root block
 for low back pain and radiculopathy, 243
 needle position for, 616(letter)
- Sensory impairment
 comparative neurotoxicity of local anesthetics, 446
- Shoulder arthroscopy, pneumothorax after, 382(letter)
- Shoulder surgery
 cervical paravertebral block for obese patient, 227
 interscalene brachial plexus block, ropivacaine vs. bupivacaine for, 539
- Single-injection block needles, characteristics in biologic models, 476
- Single-injection infraclavicular coracoid block, median vs. musculocutaneous nerve response, 534
- Skeletal muscle toxicity, of local anesthetics, 333
- Sodium channel blockade, by antidepressants, 277
- Somatosensory memory of former pain, phantom-limb-like sensations and, 383(letter)
- Spasticity, intrathecal baclofen for, 269
- Spinal analgesia, intrathecal baclofen for, 269
- Spinal anesthesia
 for cesarean section, piriformis syndrome after, 364
 hearing loss after, 430
 high-volume intrathecal amitriptyline for, 434
 history of, 136
 lithotomy position, causing cauda equina syndrome, 234
 low-dose hyperbaric vs. hypobaric bupivacaine, 17
 ropivacaine vs. bupivacaine for cesarean delivery, 221
 unilateral distribution, 4
- Spinal cord compression, from intrathecal catheter-tip inflammatory mass, 237
- Spinal-cord injury, after transforaminal epidural injection, 494
- Spinal cord stimulation, conversion disorder mimicking Dejerine-Roussy syndrome after, 164
- Spinal dorsal horn, neurobiology of infant pain and, 36
- Spinal epidural hematoma, from neuraxial anesthesia, 341
- Spinal-epidural technique, for vaginal hysterectomy in Machado-Joseph disease patient, 352
- Spinal needle design, unilateral spinal block and, 4
- Spinal stenosis, caused by synovial cysts and lithotomy position, 234
- Spinocerebellar ataxia, combined spinal-epidural technique for vaginal hysterectomy in, 352
- Stellate ganglion block, effect of head-up tilt on QT interval and dispersion, 317
- Steroid injection, foraminal, paralysis after, 494
- Steroids, transforaminal injection, 397
- Stimulating catheter
 electrophysiologic effect of flush injectates and, 509(letter)
 minimal current for continuous peripheral nerve block placement, 230

- Subarachnoid catheters, safety of, 298(letter)
- Subarachnoid space, misplacement of psoas compartment catheter in, 60
- Subdural block, perforation of dura, 7
- Subdural space injection, accidental, as failed or inadequate block, 7, 45
- Supraclavicular block, new approach, landmarks for, 72(letter)
- Supraorbital nerve block, for very-low-birth weight neonate, 58
- Suprascapular nerve block, alternative method for placing continuous nerve block catheter, 75(letter)
- Sympathetic block
 dexmedetomidine effect on mepivacaine-induced vasodilation, 323
 for herpes zoster and postherpetic neuralgia, 454
 ropivacaine vs. bupivacaine, 441
- Sympathetic efferent axon activation, in paresthesia, 69(letter)
- Synovial cysts, cauda equina syndrome and, 234
- Tension-type headache management, for pain specialist, 463
- Thalamic stroke, mimicked by conversion disorder after spinal cord stimulation, 164
- Thoracic epidural catheter
 caudal insertion using electrical nerve stimulator in children, 92
 placement in children, 83
- Thoracic paravertebral space, in situ images, 596
- Tolerance, pain management for chronic opioid-consuming patients, 576
- Tort reform, regional anesthesia risks and, 116
- Total-hip arthroplasty, patient-controlled morphine vs. nerve block for, 102
- Toxicity, maximum recommended local anesthetic doses, 564
- Transcutaneous electrical stimulation
 for catheter-guided perineural placement, 212
 for placing continuous suprascapular nerve block catheter, 75(letter)
- Transforaminal epidural injection, paralysis after, 494
- Transforaminal injection
 for selective nerve root block, 616(letter)
 of steroids, 397
- Transient neurologic syndrome, from neuraxial anesthesia, 341
- Transverse myelitis, associated with *Acinetobacter baumannii* intrathecal pump catheter-related infection, 503(letter)
- Trauma, from neuraxial anesthesia, 341
- Traumatic syrinx, after intrathecal catheter implantation, 606
- Tremor, during axillary brachial plexus block, 510(letter)
- Tricyclic antidepressants, local anesthetic properties of, 286
- Trigeminal neuralgia, percutaneous retrogasserian glycerol rhizotomy success rate, effect of CSF return on, 592
- Triptans, for migraine management, 463
- Turkey breast model ultrasound guidance interventional task, learning curve for, 544
- Ulnar nerve block, ultrasound-guidance for, 297(letter)
- Ultrasound guidance
 accuracy for sciatic nerve localization, 413
 for difficult lateral popliteal catheter insertion in peripheral vascular disease, 368
 for lateral popliteal nerve block, 507(letter)
 misplacement of psoas compartment catheter in subarachnoid space, 60
 for peripheral nerve localization in popliteal sciatic nerve block, 130
 simulated interventional learning task, learning curve for, 544
 ulnar nerve block in presence of superficial ulnar artery, 297(letter)
 visibility of needles used for regional nerve block, 480
- Vaginal hysterectomy in Machado-Joseph disease patient, combined spinal-epidural technique for, 352
- Vascular catastrophes, from neuraxial anesthesia, 341
- Vasoconstriction, epinephrine adjuvant concentration effects on local anesthetics, 307
- Vasodilation induced by mepivacaine, dexmedetomidine effect on, 323
- Vestibulocochlear dysfunction, after spinal anesthesia, 430
